Commercial Hauler Vehicle Permit Fee

May, 2006

Dear Commercial Hauler:

The purpose of Article III of Chapter 14 of the City Code is to establish minimum standards for commercial solid waste collection and transport activities within or into the City, in order to ensure orderly operations and to minimize adverse impacts on the public health and safety.

The provisions of this article apply to all commercial haulers that collect, haul or transport commercial solid waste within the City's jurisdiction to local landfills. All haulers of commercial solid waste are required to have a permit. Please refer to the City code for exceptions. This Article of the City Code may be viewed at: <http://www.municode.com> or at the City Clerk's office.

As outlined in the Code, all commercial haulers are required to furnish the following: a Permit Application; a Vehicle List and proof of Insurance Coverage. Enclosed are the required forms. Please complete these forms and return to:

City of San Antonio
Environmental Services Department
1920 Grandstand
San Antonio, Texas 78238
Attn: Fiscal Office

Once your forms have been received, a site visit may be scheduled to verify the information and to possibly conduct a vehicle inspection as described in the Code. It is important that you complete and submit the Permit Application form along with the other required information as soon as possible in order that permits be issued with minimum interruption to your services. In the very near future, permit compliance will be checked at the local landfills and other locations. Please note there are penalties for non-compliance.

Thank you in advance for your support and attention to this matter. Should you have any questions, please contact our Vehicle Permit liaison, David McDaniel, at 207-6414 or our Fiscal Manager, David Lopez, at 207-6474.

Sincerely,

Daniel V. Cardenas
Director
